

Competitiveness Through Regulatory (Un)Certainty

Scott Tessier

CEO

www.slido.com

Event Code: #2252439

Deadline: close of business June 11, 2024

CNLOPB

Regulating in the Public Interest

- Regulatory regime must adapt to the public interest to maintain trust
- Regulators are expected to trust to a degree but verify compliance
- Certainty in approvals and authorizations is proportional to operator clarity and completeness
- Public interest is broader than speed and competitiveness
